

## ALLGAIER Screening Technology Questionnaire

We need information that is as detailed as possible to provide the best design of an ALLGAIER screening machine. Of course, we treat your data confidentially.

### 1. Customer information

Company: Contact via:  
 Street: Postal code:                      City:  
 Contactperson:: Position:  
 Dept: Phone:  
 Mobile: Fax:  
 Email:

### 2. Activity

**Industry:**

### 3. Field of Application

**Objective:**

Material:

Project / Project-Nr.:

### Process Information

Capacity: kg/h l/h

### Grain size distribution

| Fraction | from | to | Portion |
|----------|------|----|---------|
| 1        | mm   | mm | %       |
| 2        | mm   | mm | %       |
| 3        | mm   | mm | %       |
| 4        | mm   | mm | %       |
| 5        | mm   | mm | %       |
| 6        | mm   | mm | %       |

Moisture: Surface: % Capillary: % Solids content: g/l

Bulk weight: kg/m<sup>3</sup>

Product temperature: °C

General material properties such as state, grain shape, etc. / Experiences when screening this material:

|                                   |     |    |
|-----------------------------------|-----|----|
| Hazardous working material:       | Yes | No |
| Explosion protection:             | Yes | No |
| Interior space of the machine:    |     |    |
| Place of installation of machine: |     |    |
| Minimum ignition energy >3mJ:     | Yes | No |

Other remarks:

Company stamp and signature

Date

The signatory confirms the correctness of the data given above.
